

Violent and Graphic Content

Policy details

Policy Rationale

We remove content that glorifies violence or celebrates the suffering or humiliation of others because it may create an environment that discourages participation. We allow graphic content (with some limitations) to help people raise awareness about these issues.

We know that people value the ability to discuss important issues like human rights abuses or acts of terrorism. We also know that people have different sensitivities with regard to graphic and violent content. For that reason, we add a warning label to especially graphic or violent content so that it is not available to people under the age of 18 and so people are aware of the graphic or violent nature before they click to see it.

Do not post:

Sadistic Remarks

- Sadistic remarks towards imagery that is deleted or put behind a warning screen under this policy, unless there is a self-defense context or explicit educational context in a medical setting.
- Sadistic remarks towards imagery of one or more persons subjected to violence and/or humiliating acts by one or more uniformed personnel doing a police function.
- Offering or soliciting imagery that is deleted or put behind a warning screen under this policy, when accompanied by sadistic remarks.
- Explicit sadistic remarks towards the suffering of animals depicted in the imagery.

Note: We're always improving, so what you see here may be slightly outdated compared to what we currently use.
